

# CS2100 Evolution - SE 19

Driving Communications Forward

Ribbon delivers a compelling roadmap for the Communication Server 2100. The SE 19 release delivers new platform options, security enhancements and compelling unified communications services. Customers can be assured of the increasing value of their CS 2100 investments.

## Overview

Deploying SE 19 makes it cost effective to optimize your core platform investment and enables employees to move away from legacy voice-only services and proprietary phones. Create a modern unified communication environment with UC clients for PCs, MACs, iOS and Android devices. And keep employees engaged and productive from almost anywhere with multi-party video and screen sharing services.
