

Yealink Phones for Ribbon Solutions

Yealink is a market leader in SIP-based telephones that meet the needs of almost any organization. From innovative executive-level multi-media devices focused on productivity, to entry-level phones focused on value. Yealink has solutions for conference rooms, huddle rooms and telecommuters. Many of their latest T5 Series models can connect via WiFi, even if traditional wiring isn't available. All T5 models offer integration with Yealink's cordless phones, so employees can stay connected and productive.

Best of all, Ribbon and Yealink work closely to assure that our mutual customers can select the right Yealink phone for their specific work environment and always get a full complement of features. Visit Yealink.com to see a complete list of Yealink devices and ask your Ribbon representative for the latest Supported Device Guide to see interoperability test results.

Yealink

Market Leading Wireless & Cordless Solutions
