

ISSUED: February 20, 2026

End of Product Sale Notice for the Ribbon Federal Edge 2000

Ribbon Communications, Inc. (“Ribbon”) introduced the Edge 8000 family in 2023 and recently completed certification of the Federal Edge 8000 with the Joint Interoperability Test Command (JITC). The Federal Edge 8000 is specially packaged for use in the US Federal Government domain. Ribbon continues to modernize its edge portfolio by delivering new edge appliances that offer higher performance SBC capabilities, advanced 10G routing functionality, and broader gateway services.

As part of this Edge platform evolution, Ribbon is announcing the End of Product Sale (EoPS) of the Federal Edge 2000 – FE 2000. All future FE 2000 system opportunities should be directed to the Federal Edge 8000 portfolio. Please review the Product Life Cycle dates below for specific milestones.

FE 2000 software features and licenses (typically used to expand existing deployments) are not affected by this notice and remain available for purchase.

This End of Product Sale Notice is designed to give US Federal Government customers advanced notice to ensure that upcoming opportunities or purchases are not negatively impacted. Deployed customers will continue to receive RibbonCare support and have the opportunity to expand their existing FE 2000 systems with software features and add-on licenses. Please review the Product Life Cycle table below to see the End of RMA Support dates for this solution.

SUGGESTED REPLACEMENT PRODUCTS/SKUs	
EOPS PLATFORM	REPLACEMENT
Federal Edge 2000	Federal Edge 8300/8500

PRODUCT LIFE CYCLE DATES	
Milestone	Date
End of Product Sale (EoPS) Announcement: Date on which Ribbon has announced EoPS.	20 February 2026
Last Quote Date: Date on which the affected product codes are no longer available for quoting.	30 June 2026
End of Product Availability: Date on which the affected product codes are no longer orderable.	30 September 2026
End of Product Delivery: Date on which the affected product codes can no longer be shipped.	15 November 2026
End of RMA Support: Date on which all levels of RibbonCare HW support are no longer available for purchase for the affected product. Ribbon intends to provide RibbonCare HW support services for at least 5 years from the End of Product sale announcement. After the EORMA date, Ribbon may offer Best Effort RibbonCare Return for Repair support limited by repair parts inventory and/or Technical Support.	31 March 2033

Table notes:

1. The above dates are for planning purposes only, and Ribbon reserves the right to change them with notice.
2. In the event this bulletin conflicts with your existing Ribbon purchase agreement, your purchase agreement shall control and take precedence.

FREQUENTLY ASKED QUESTIONS	
Frequently Asked Question	Answer
What does the Federal Edge 8000 provide beyond the Federal Edge 2000 functionality?	The modern, modular Edge 8000 architecture inherently enables expansion to new applications, 10Gbps scale and superior session performance, improving service provider profitability and experience in the operations, planning, and support of their networks. Learn more about the Edge 8000 here .
Where can I find the details on Ribbon's hardware support policy?	Ribbon's product lifecycle policy is available here .
