Left Navigation Bar:

Accessing your profile:

1) On the side menu scroll down and select the user image. This will take you to your Profile.

You can also access your profile by clicking the avatar on the upper left. You can also logout from this menu.

Your Profile page:

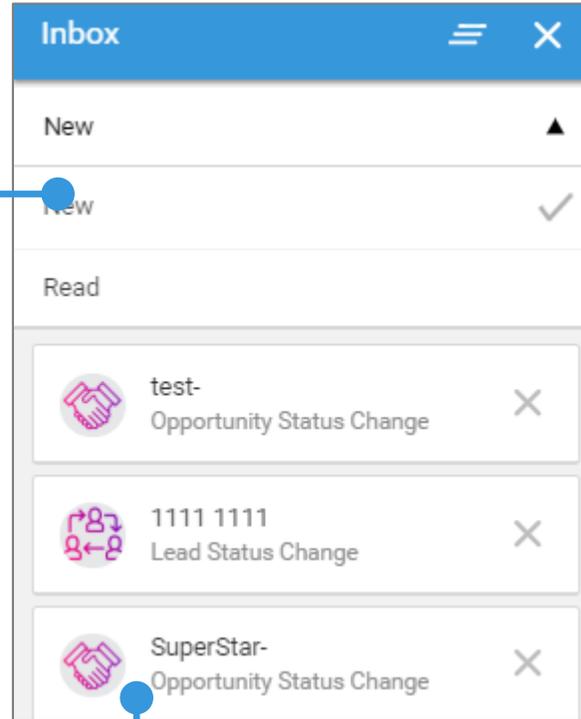

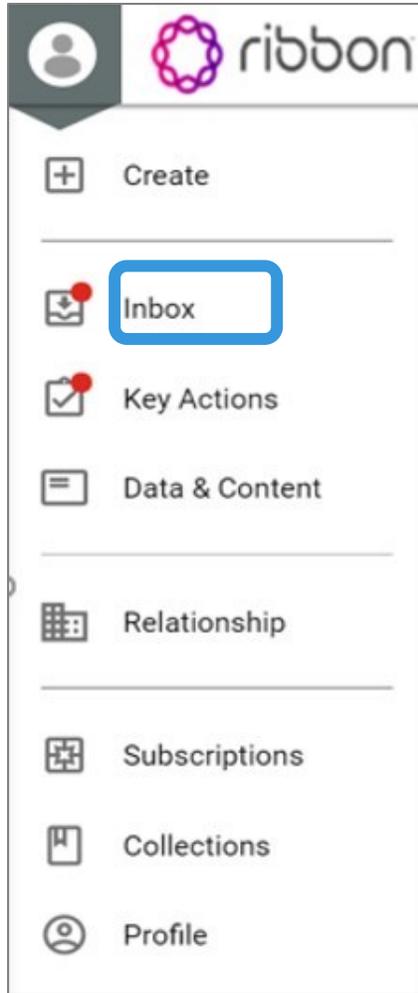

The screenshot shows the 'Your Profile' page. At the top, there is a dark purple header bar with the text 'Your Name' on the left and four icons on the right: a profile icon, a photo icon, a key icon, and a three-dot menu icon. Below the header is a light gray 'Overview' section. This section contains three columns, each with a title and a gear icon for settings:

- Personal Information**:
 - First Name
 - Last Name
 - Display Name
 - Language: English (US)
 - Country: N/A
 - Timezone: (UTC) Coordinated Universal Time
- System Details**:
 - Only show Content in my Language: No
 - Default Card Style: N/A
- Notifications**:
 - Email Frequency: Daily

Profile Information and Password are associated with your Salesforce account.

Navigating the Portal: Hubs

Top Navigation Bar

The screenshot displays the top navigation bar of the Ribbon Partner Portal. On the left, there is a vertical sidebar with icons for home, notifications, and user profile. The main navigation bar features the Ribbon logo and a menu with four items: "Ribbon Partner Portal" (highlighted with a blue border), "Sales Hub", "Marketing Hub", and "Technical Hub". To the right of the menu is a search bar with a magnifying glass icon and the text "Search". Below the navigation bar is a dark purple header with the text "Ribbon Partner Portal" and several utility icons: a speech bubble with '0', a heart with '1', a share icon, a calendar icon, and a vertical ellipsis. Underneath the header is a row of six notification pills: "My Work", "Lead Assists Working" (0), "Lead Assists Pending Conversion" (0), "Lead Share Pending" (0), "Lead Share Working" (0), and "Lead Share Pending" (0). Below this row is a section titled "Quick Links to Ribbon Hubs" containing four grey buttons with white icons and text: "Support Hub", "Customer Document Hub", "Education Services Hub", and "Homologation".

Searching and Filtering Content:

To search for content, use the Search bar in the top right corner

Depending on your screen size, Filter may appear at the top bar, or on the right-hand side.

Search Filters:

- 1) When you select Filter, a window will pop-up on the Right-hand side.
- 2) Narrow down your search by using various Filter categories

Searching and Filtering Content:

Click tile to open

The screenshot displays the Ribbon Partner Portal interface. At the top, there are navigation tabs for 'Ribbon Partner Portal', 'Sales Hub', 'Marketing Hub', and 'Technical Hub', along with a search bar. The main content area is a grid of tiles. On the left, there are tiles for 'Ribbon's JITC Solutions at a Glance', 'SBC 5We', 'SBC 7000', 'JITC Solutions at a Glance Solution Brief', and 'The Ribbon Communications Insight Element Management System'. In the center, there are tiles for 'Sales Kit', 'EdgeMarc 6000 Launch Kit', 'EdgeMarc 6000 datasheet', 'Support Services Sales Tools', and 'Support Services'. On the right, there are tiles for 'EdgeMarc 6000', 'Event Announcement', 'Edgemarc 6000 Webinar', 'Marketing Update', 'Sales Landing Page', and 'Support Services'. A 'Filter' sidebar is visible on the right side of the grid, with a 'CLEAR' button. The filter sidebar includes sections for 'Preferences', 'Content Type', 'Available Translations', 'Resource Type', 'End-Customer Interest', 'Services', 'Buyer Stage', 'Technology', and 'Portfolio'. A blue circle highlights the 'Filter' sidebar, and a blue arrow points from the text 'Filter' to it. Another blue circle highlights a tile in the grid, and a blue arrow points from the text 'Click tile to open' to it.

Content Card Options:

Ribbon EdgeMarc 6000

The Ribbon EdgeMarc 6000 is the newest addition to the intelligent Edge family. It acts as a flexible demarcated service insertion/control point device with physical telephony ports and power to run multiple virtual network functions (VNFs). Specifically designed for unified communications offering, this network device can connect to a variety of digital and analog legacy systems. Its ARM-based architecture reduces capital expense while automated "zero touch" provisioning, remote monitoring and management reduces operating expense. The 4G LTE radio provides WAN connectivity that can be used to ensure business continuity. The EdgeMarc 6000 has plenty of room to run VNFs to meet customer-specific needs.

Session Capabilities

- 320 concurrent session capacity
- 20 TDM ports
- 1 Open protocol Provisioner

LAN/WAN Connectivity

- 1 or 2 SIP ports over T1/E1
- 8 FXS ports
- 2 FXS ports
- 4 LAN ports
- 2 Ethernet ports for WAN
- 2 SIP ports
- 4G LTE radio

Multi-tenant Management via Ribbon EdgeView

Service Control Center

- Service provisioning
- Service monitoring
- Service assurance reports
- Multi-tenancy
- Remote and local billing

Third-Party

- Third-party SIP
- LAN/WAN/MSB services
- SIP call diagrams
- Webhooks

Physical Environmental

- Dimensions: 3.4 x 6.1 x 3.0 x 5.4 (mm)
- Power: 75W DC 12V desktop power adapter
- Operating: 5 to 40°C (32 to 104°F) Greenleaf 2.0 Size
- Operating Temperature: 5°C to 40°C
- Operating Relative Humidity: 45% to 95% (non-condensing)

Also of Interest Considerations

Ribbon is a company with a track record of leadership in real-time communications. Built on world-class technology and innovation, Ribbon delivers intelligent, secure and open real-time communications for today's world. The company transforms fixed, mobile and enterprise networks from legacy environments to secure IP-based cloud-based environments, enabling highly productive communications for consumers and businesses. With solutions in 12 countries around the globe, Ribbon's innovative, market-leading portfolio empowers service providers and enterprises with rapid time-to-market and high-quality, multi-tenant services. The company's latest Platform-as-a-Service (PaaS) architecture empowers over 100 advanced connected communications capabilities that enables this revolution.

Ribbon's JITC Solutions at a Glance
Driving Innovation within the Federal Market

Ribbon brings the next generation of cloud-based session initiation protocol (SIP) and 4G/VoLTE solutions to customers by enabling and securing mission-critical traffic for their real-time communications. Federal agencies and departments can intelligently and securely communicate and collaborate across sites regardless of the communication platform. Ribbon solutions deliver centralized session management, security and unified communication (UC) solutions that enable highly productive communications experiences for employees and customers using the web, mobile and fixed endpoints.

Ribbon has continued to develop and maintain a strong presence within the Federal tactical and enterprise markets, with a primary focus on securing real-time UC enabled through our Joint Interoperability Test Command (JITC)-certified line of products.

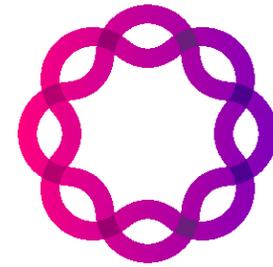

JITC-certified

SBC SWe

The Ribbon SBC Software Edition (SWe) delivers user-defined scalability on a virtualized platform with the same advanced features and functionality as an appliance-based SBC. The SBC SWe features the same code base, resiliency, media transcoding and security technology found in Ribbon's award-winning SBC 5000 Series and SBC 7000. The SBC SWe operates seamlessly with the existing Ribbon SBC product portfolio. Scalable from 25 to an unlimited number of sessions, the unique architecture of the SBC SWe allows customers to define where on the performance curve their network needs to reside.

SBC 7000
